TO : (All Staff and Division Chiefs)

Fig. : (Operating Official)

SUBJECT: "File Clean-up Compalen"

- 1. As encounced by the Director on 7 July 1950, a "File Clean-up Campaign" will be conducted throughout the Agency during July and August. During this campaign a complete and realistic commination is to be made of material in every drawer of every file in Readquarters. Obsolete records will be destroyed, inactive records retired to the Records Center, unclassified material relocated in less expensive office equipment, and unused office equipment returned to the Office of Logistics.
- 2. Today a 4-drawer safe costs about \$420 and occupies eight square foot of floor space valued at about \$30 per year. You can readily see our savings when inactive records are stored at the Records Center where the storage cost for equipment and floor space is \$10.00 for five years. Another expense is our alerical costs which increase every time inactive records are unnecessarily handled in processing our active files. Retired files at the Records Center are out of the way of our current activities and are only a phone call away when needed.
- 3. Sech of our offices has an official Records Control Schodule to guide its Records Hanagement Progress. Additional sesistance can be had from our Area Records Officer, Mr. _______ in Room Ruilding _____, extension ______. Both the Records Control Schedule and the Area Records Officer are to be consulted in carrying out the Director's aim and intention in this File Clean-up Campaign.
- 4. This temperion is deliberately planned as an "all employees" effort because all employees have personal files and most are responsible for creating and keeping office records. Each Division and Branch should include all personnel in its comparin. You may find it advantageous to appoint comparing leaders or to designate an office masher to serve as lisison between the offices and our Area Records Officer. Also, perhaps designating a "File Clean-up Day" in the Division or Branch will concentrate the effort and time spent to achieve the comparing success the Director expects within our area.
